PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in full-stack web development and software engineering. Experience working with Python, C#, ASP.NET Core MVC, MySQL, and modern web technologies, with exposure to mobile and game development. Good understanding of databases, object-oriented programming, and software design, with practical experience developing applications from design to deployment.

KEY SKILLS

- Python, C#, JavaScript
- ASP.NET Core MVC, React, Node.js
- HTML, CSS, Bootstrap
- MySQL, SQLite (Database Design)
- Git/GitHub, Version Control
- OOP, Software Development Principles
- Visual Studio, VS Code, Jupyter
- Data Analysis (Pandas, NumPy)
- Basic Cloud (AWS, Google Cloud)

WORK EXPERIENCE

Mapúa Malayan Colleges Laguna - College of Computer and Information Science Department

Computer Science Part-time Faculty

Cabuyao, Laguna

September 2025 - April 2026

- Delivered lectures on core Computer Science subjects such as programming fundamentals, Object-oriented programming concepts, and web development
- Designed course materials, assignments, and assessments aligned with academic standards
- Guided students in hands-on projects to strengthen practical and problem-solving skills

TDK Philippines Corporation - Information System Department

Full-Stack Web Development Intern

Biñan, Laguna

May 2025 - July 2025

- Developed a full-stack web-based asset management system using ASP.NET Core MVC, MySQL, and Bootstrap, improving tracking of employee asset ownership.
- Designed database architecture (ERD), implemented data import/export modules, and deployed the system on a live hosting environment for internal use.
- Produced system documentation and user manual to support training, knowledge transfer, and long-term maintenance in collaboration with the Information Systems Department.

EDUCATION

Mapúa Malayan Colleges Laguna

Bachelor of Science in Computer Science | GWA: 1.58

Cabuyao, Laguna

August 2021 - September 2025

- Relevant Coursework:** Software Engineering, Data Analytics, Machine Learning, IT Infrastructure and Network Technologies, Information Assurance and Security, System Fundamentals
- Awards/Honors:** Magna Cum Laude
 - President's List Awardee A.Y. 2023-2024
 - Dean's Lister A.Y. 2023-2024 (1st - 3rd Term)
 - President's List Awardee A.Y. 2022-2023
 - Dean's Lister A.Y. 2022-2023 (1st - 3rd Term)

RESEARCH EXPERIENCE

Undergraduate Thesis – Mapúa Malayan Colleges Laguna

Predicting CA19-9 Levels Using Selected Urine Biomarkers via Ensemble Learning Techniques

2024 - 2025

- Developed a web-based application to support data input, analysis, and visualization of biomarker predictions.
- Implemented and evaluated ensemble learning models for improved accuracy in medical data prediction.
- Collaborated with a research team to bridge web development and machine learning in a biomedical context.

LEADERSHIP EXPERIENCE & AFFILIATIONS

One-Day Digital Literacy Workshop: Algorithmic Thinking & Basic Programming for SHS Students at Don Jose Integrated National High School 2025
Facilitator

- Assisted in teaching Senior High School students basic programming concepts and algorithmic thinking.
- Supported learners in hands-on coding activities, reinforcing foundational computational skills.
- Collaborated with lead instructors to deliver accessible and engaging content.

Junior Philippine Computer Society - Mapúa Malayan Colleges Laguna 2023 - 2025
Member

- Actively participated in seminars and tech-related events organized by JPCS.
- Engaged in a community of peers to broaden knowledge in computer science and emerging technologies.
- Collaborated with fellow members in academic and extracurricular activities promoting IT skills development.

CERTIFICATES AND AWARDS

Employability Skills – JobReady June 2025
• Wadhwani Foundation

Test of English for International Communication (TOEIC) March 2025
• Princeton Assessments and Training, Inc.

CompTIA IT Fundamentals (ITF+) Certification July 2024

SEMINARS ATTENDED
